An attachment has been obtained in this city against Leahey & O'Brien, dealers in furniture and carpets at 1299 Broadway, Brooklyn, by Myers, Goldsmith & Bronner for \$366 for goods sold to the firm by the H. B. Claffin Company. An attachment has been obtained here against Max Boehm, merchant tailor at 82 Fifth avenue, Brooklyn, for \$834 in favor of C. V. Fornes &

Deputy Sheriff Whoriskey has received another attachment against the R. Rothschild's Bons Company, manufacturer of bar fixtures at 579 Broadway, for \$24,489 in favor of the Bank of America, for money loaned on April 26 and

of America, for money loaned on April 28 and May 14.

Deputy Sheriff Lipsky has received an attachment against Sampson Q. Mingle, real estate operator at 22 East Forty-second street, for \$1,916 in favor or the Pepperell Company, for alleged breach of contract for non-delivery of Yonkers Park lots.

Deputy Sheriff Loub has received an attachment against Parmiy S. Clapp of Bridgeport, Conn., for \$1,428 in favor of Sarah Isabel Fox for damages to furniture in apartments at 221 West Fifty-seventh street, which she rented to him last winter. She alleges that he kept a dog in the dining room, and that it solled some costly rugs and furniture; that the dining room chairs were used to dry the children's clothes when solled, and that the dining room table was used by a dressmaker as an ironing board.

The Sheriff has received an attachment against Henry B. Carroll, horse owner, for \$491 in favor of Lewis D. Brokaw for services as trainer. Deputy Hirschberg went to Fleetwood. Park and seized six horses belonging to Mr. Carroll and took them to the Edgecombe stable, at 311 West 140th street, for safe keeping. The horses were Happy Boy, Louisc, St. Patrick, Billy Mack, Kremin, and Florence B. Albert S. Williams has been appointed receiver in supplementary proceedings for Bertsch A. Lesser, dealer in tailors' trimmings, of 129 Stenton street, on the application of the Gutebord Brothers Company.

John V. Bouvier, Jr., has been appointed receiver in supplementary proceedings for Frank P. Morse, advertising agent of 100 William street, on the application of John A. Andrews and others, who obtained a judgment against him in June for \$2,269.

BROOKLYN TROLLEY DEALS.

meter P. H. Flynn Opposes the Consolida-

Patrick H. Flynn, who was the promoter of the Nassau Electric Railroad Company, was opposed to the organization of the Brooklyn Traction Company, which controls the Brooklyn Heights, the Brooklyn City, and Brooklyn, QueensCounty and Suburban railroad companies.
He is also a stockholder in the Coney Island and oklyn; Ratiroad company. The Coney Island and Brooklyn Company has agreed to consolidate with the Brooklyn City and Newtown Railroad Company, and yesterday President

solidate with the Brooklyn City and Newtown Railroad Company, and yesterday President Partridge of that company notified Mr. Flynn, who owns 346 shares in the Coney Island corporation, that the contract had been entered into, and he was asked to transfer! his stock certificates to the Mercantile Trust Company. At the same time President Sullivan of the Coney Island company requested the stock-holders to turn over their certificates to the trust company and receive in return certificates of stock in the Brooklyn City and Newtown Railroad Company.

Mr. Flynn said that he would oppose any such consolidation, and his lawyers, Grout, Jenka, Mayer & Hyde, were instructed to apply for an injunction restraining the consolidation of the two roads. Mr. Grout said to a reporter of The Sun last night that the papers had not been drawn up as yet, but he intimated that they would be presented to Justice Smith in the Supreme Court in Brooklyn to-day.

With the consolidation of the two companies there will be next summer a direct line from North Beach to Coney Island. The Brooklyn City and Newtown road contemplate building an extension from their present terminus at De Kalb and Hamburg avenues to North Beach. The cars will run in a direct line along Franklin avenue to and around Prospect Park, connecting with the present route of the Coney Island and Brooklyn road, and were willing to pay \$22 for each share of stock. The offer was not accepted.

WEDNESDAY, Aug. 4. The transactions in stocks to-day were the largest on any day this year, and the distribution of business has never been equalled in the history of the Stock Exchange. One hundred and forty-two issues were dealt in. The business in bonds was not quite as large as yesterday, still that market was unusually active, and transactions were recorded in 125 issues. The tone of both markets was strong throughout. The unusual breadth of the market and the further material advance in prices naturally invited a good deal of profittaking, which affected prices in the last hour; but at the reaction the market showed no impairment of the firm undertone that has characterized it all along. A more decided reaction may take place, but it is not conceivable that any fluctuation that may occur will disturb the increasing confidence of substantial inter-ests and of the public generally regarding the future of the business of the country. It is possibly true that the stock market is discounting that future at a some-what rapid pace. On the other hand, such facts as the increase in the gross earnings of the Rock Island Company for July and in those of the St. Paul company for the last week in that month, both of which took place before the movement of this year's crop began, suggest a probable condition of affairs simi- lar to that which existed in 1879.

London continues to sell securities in this market, and its sales to-day were upon a fairly large scale, but all offerings were readily absorbed, and prices advanced in the face of foreign arbitrage operations. As trustworthy cable advices are that the English public is be ginning to buy American shares, it seems logical o draw the conclusion that the foreign selling is largely of a professional character, and much of it is probably for short account. More conspicuous and effective than the foreign arbitrage operations in stocks are the continuous heavy purchases of wheat for export. The takings to-day at New York and other ports were upward of 1,000,000 bush. The taking of that amount on two days in succession is most unusual. The foreign exchange market continues to reflect this enormous yet incipient movement of breadstuffs out of the country. It was decidedly weak to-day, as the increasing supply of commercial futures, chiefly against grain, induced bankers to offer their bills more freely than for a long time past. When it is considered that this movement will be supplemented in a comparatively short time by offerings of bills against cotton, the future of the foreign exchange market can easily be fore-shadowed. Foreign operators, and even investors, may continue their sales of American securities for some time to come, but they cannot check nor in any way interfere with the European demand for wheat, cotton, and other staple products of this country. Moreover, it is only a question of time when the present agri-cultural advantages of the United States, with their resultant prosperity, will reattract Enro-

Specific influences affecting prices to-day besides those already mentioned were reports of bundant and much needed rains in K a further advance in the price of wheat. Owing to the reactionary movement in the last hour, very few of the usually active stocks scored noteworthy net advances. In the early dealings, however, new records were made for a number of them, notably Sugar Refining. The best showing was made by stocks that have only recently become prominent, nota-bly American Tobacco, Bay State Gas, Laclede Gas, and Eric securities. Of the more substantial stocks Consolidated Gas, New York Central, and Illinois Central received more attention than for some time past, and closed from 1 to 5 points higher than yesterday. The dealings in Reading securities were feature of the market, and under the lead of the common stock they closed at an average net advance of nearly a point. American Spirits received fresh attention, but the price fluctuated within narrow limits, possibly because the Street failed to realize the importance of the street failed to realize the importance of the agreement that has just been reached between all of the larger producing and distributing interests relative to production and prices. This agreement, which is the outcome of protracted negotiations, places the trade, it is claimed, upon a more substantial and profitable hasis than ever before.

Final saies compare with those of yesterday as follows:

Last

Opening, Highest, Lowest, Closing, Night Opening. Highest. Lowest. Closing. Night. 221's 22'.

Wheat was strong and higher to-day. The trading was active and included good buy up for for ign secount. At the opening prices advanced sharply, influenced by strong liverpool cables, light Northwestern recepts, and reported area excepances of offerings. Local operators took profits on the rise, however, and prices reacted and lost the improvement. The reaction, however, was only temperary, for on strong closing cables, continued buying for for din account, covering of shorts, and a reported heavy demand for export, prices railled and advanced arrepty, closing at about the best figures of the day. Chi.ugo reported inquiries for wheat from Austria, Liv. r. pool advanced 2 to 24d. but lest part of the rise, Parls was asfer early, but railled and advanced 8 to 24d. Four there rose 1s frame. The clearances from New York in two days of this week have been 8135,000 bitsh. The Northwestern receipts were 107 cars, aga not 310 last week and 2.3 last year. Cit. cago received 136 cars, against 160 ust week and 144 last year. The receipts there to morrow are estimated at 176 cars. Corn closed lower, depr s-ed by r. this in Kanasa and Missourf and predictions of frince rains and cooler weather throughout the carn bett. Liverpool advanced 14d, to 14sh, but r. acted. Oats were duil but firmer. Chearo received 446 cars, and expects 500 to morrow. Chi.ago, Aug. 4.—'It was yesterday's wheat market every second and to the carn better the carn better and the carn bett

take profits, but foreigners still with the buying fewer. To-day's prices were the best so far, 784c. for September, 14c. over last night. December got a little over *0. There was practically no reaction. The foreign news overshalowed everything cise, Liverpool up 3d., Paris up equal to 15 to 28c. § bush., antwerp up equal to 4c. a bush. The other side accepted everything offered them, over 1,000. 000 bush, at any rate, in all positions. There is no possible way of tell ing how much wheat the other side did take. At least 200,000 bush, was old from here direct. Minneapolis claimed 500,000 bush, sold. The scaboard figured that the day's business had been at least 140 loads. One of the rem relations for offers of wheat to one of the Danubian ports. To cap the climax, Western receipts are falling off. 778,000 bush, at primary points to-day. Although Chicaco advanced Re, it did no better than the outside markots—not as well as some of them. Buitmore was up 3c., and New York and St. Louis kept a little shead of us. Cash keeps at a premium over September—Ic, to 3c. over for the differ nt grades. If it is not a buil situation, there never was one. There ought to be a selling place here somewhere, but it will depend liogether upon the mood of the foreigners. The corn drought was broken yest-roay; good rains through Kansas, lows, and Missouri, and more promised for to-morrow. Corn drop ed 1%c. and then recovered half of it. There is an enormous shipping demand to-day, much of it for export. The Kansas crop bull-tin concedes a creat deal of damage. The danger of as ditional injury from drought or hot weath r is probably over. Corn, however, is not high. The crop will not be above an average at best, with a chance of frost scare in September, Oats held their own in spite of the break in corn. Shorts availed of the day to cover very freely. The shipping demand to-day, much of it for export. The kansas crop bull-tin concedes a creat few is the second of the say to cover very freely. The shipping demand to-day, much of it fo

Imperial Counsellor of Public Works to the Emperor of Germany. REGISTRARS OF STOCK.

THE CONTINENTAL TRUST COMPANY, 30 Broad Street, New York. STATUTORY AGENT FOR NEW YORK

THE NATIONAL CORPORATION AGENCY, Johnston Building. BANKERS.

THE INVESTMENT CORPORATION. 30 Broad Street, New York.

The objects of this company are:

(a). The exploratior of the gold fields of Alaska and the Northwest territory, and the development, operation and otherwise handling or disposing of such valuable discoveries and other properties as may from time to time be acquired by the company.

(b). To engage in a general trading and transportation business; supplying tools, machinery, provisions, and all necessaries for remote minguightesticts and communities.

(c). To operate in like manner wherever the opportunities for profit may warrant.

PLANS AND SCOPE.

PLANS AND SCOPE.

In furthering and carrying out the objects of the company steamships of suitable size will be chartered or acquired to send thoroughly equipped expeditions to the recently discovered gold fields of Alaska and the Northwest territory. All necessary supplies, including tools, machinery, provisions, clothing, etc., etc., are to be purchased and taken along, in addition to which will also be taken everything necessary for successful trading expeditions, and for the establishment of trading stores in the various camps where such operations may be found to be profitable. This initial step will be followed by the establishment of necessary facilities for the regular transportation of passengers and freight between such stores and the United States.

It is believed by the best informed scientists and experts that the recent large quantities of gold discovered in the region in which it is proposed to operate prove the existence within

The commodious and fast-sailing steamer PORTLAND leaves

SEATTLE SEPTEMBER 10TH

Fort Get There, St. Michael's Island, Alaska, mouth of the Yukon River, making connections with the river steamers Weare,

Cudahy, Hamilton, Healy, Power, and Klondyke. Passengers will be landed at Circle City, Fort Cudahy and Klondyke gold mines on or before June 15th, 1898. Fare, including board, one thousand dollars. Placer and quartz mines bought and sold. Investments in mining property made, saving expense of sending agents. Our agents and experts are on the ground and have been for years. We will issue letters of credit on our company at its posts, Circle City, Alaska, and Fort Cudahy, Dawson City, and Klondyke gold fields, Northwest Territory, at a charge of 1 per cent. Employ-

ment will be given at remunerative wages during the winter along the river chopping and banking steamboat wood. Large stocks of supplies of all kinds will be found at Fort Get There and Hamilton, on the lower Yukon. For particulars apply

reasonable proximity thereto of the essentially large and rich veins from which this gold has come. One of the purposes of the expedition is to attend to discover these veins, which, if found, will certainly yield enormous returns for an indefinite period.

The expedition will be managed by men experienced in the various departments to which they will be assigned. A capable mining experivall be in charge of a corps of experienced and reliable prospectors, who are being selected with great care both in respect to their physical ability to endure the hardships of such an expedition and their knowledge and experience in such work. These men will be employed in prospecting, locating, and working such claims as may be taken up, and generally in promoting and fostering the interests of the company.

A capable and reliable business man will look after the general interest of the company, and a physician will accompany the expedition.

Those desiring to join the expedition should make application at once.

ADVANTAGES,

ADVANTAGES,

Through the medium of this company hundreds of people will be enabled to participate in the profits to be gained in the wonderfully rich gold fields without enduring the hardships incident to working the mines. Thus the danger of death or disability from exposure will be avoided and the risk of individual failure eliminated. Failure must necessarily come to the majority of individuals for patent reasons where this company, through its financial strength and resources in the field of operation and concentration of effort of its organization, can overcome the barriers to individual success and largely increase the percentage of profits that even the most successful individuals may reap.

An agent is now en route to the gold fields, and negotiations are in progress through a reliable representative in San Francisco for the acquirement of claims owned by persons who have just returned from Klondyke, the value of which have been proved by actual working.

FOREIGN CONNECTIONS.

The number of claims this company will lecate, and the amount of territory it will acquire, will far exceed the ability of any one company to operate. Most valuable and influential connections have been arranged in London and on the Continent for the purpose of forming subsidiary companies to work such property as this company may not be able to undertake.

RESULTS.

It is believed that such an expedition, intelligently managed, will result in very large profits to this company and the establishing of a permanent and lucrative business. The profits to be derived from the transportation and trading departments will certainly more than cover all expenses, leaving as a net profit to the stock-holders all the money realized from the mining operations.

bolders all the money realized from the mining operations.

For the purpose of providing ample working capital, \$1,000,000 (200,000 shares) of the capital stock will be sold at par.

The undersigned is authorized to receive subscriptions for the stock, \$5.00 per share, and will forward certificates as soon after the receipt of remittances as possible. Subscriptions must be accompanied by draft on New York, Post Office money order, or currency by express, payable to the order of
